

# Penguins Newsletter

Hopefully this term with the improved weather we will be outside den building and bug hunting. We have been working on new environments and features in our outside area for the children to explore. The children may need sun cream applied in the morning if we are lucky enough to have any hot weather.

## What to expect this term!

Our topic in term 5 is 'Life on Land and water'. Our term starts with looking for signs of spring, we will be identifying different signs of spring around our school site.

This term we will be looking at Life cycles of a frog, minibeasts, creatures in the ocean and growing vegetables.

Each week we will follow a different story to support our learning of these themes. We will look at the Teeny Weeny Tadpole by Sheridan Caine, Super Worm by Julia Donaldson, Snail and the Whale by Julia Donaldson and the traditional tales– The Enormous Turnip and Little Red Hen,

## Trips and Visitors

We will also be having another trip to Mrs Lockwood's working farm to learn about where bread comes from, we will act out the story of the Little Red Hen and plant corn, grind our own flour and make our own bread at the farm.

We have a very busy term ahead

## Dates for the diary:

- Term 5 starts - Monday 20th April
- The school day starts at 8:40 where the children practise fine motor skills and registration is at 8:50am- Please be on time
