

Science

In science this term we will continue learning about animals. We will be looking at what different animals eat.

We will then be learning about ways that we can care for the planet.

We will also be exploring the growth of plants throughout the next couple of terms.

English - Reading

Our text this term is called, "The Secret Sky Garden". To compliment this, we will be reading a variety of stories in class. These should be inspiring and encourage the children to be imaginative.

We will also be reading a variety of non-fiction texts and poetry throughout the term. We will continue to practise our phonics daily in our whole class sessions, as well as our daily reading sessions where each group will have a reading for pleasure session to further encourage a love of reading.

English - Writing

We will be spending most of the term completing tasks around the book, The Secret Sky Garden. We will revise what a sentence is and look at different punctuation. We will continue to improve our writing by adding 'joining words' like and, so and but.

We will write an email, create a non-chronological report and a comparison about two different pictures in the book using adjectives and our five senses to describe the settings. There will also be many other opportunities to improve our writing.

History

Flight

Why was Amelia Earhart so significant?

How have aeroplanes changed over time?

Music

With Nick

This term we will be focussing timbre and rhythmic patterns through fairytales. The children will learn that sounds can represent different characters and moments in a story.

PELICANS Term 4 2024 Travel and Change

RE

The focus for the Spring term is Judaism.

This will include traditional food tasting with Miss Marsh.

PE

This term, Team theme are teaching multi skills with a link to basketball.

PSHE Healthy ME

This term we will be looking at what we can do to keep ourselves safe and healthy.

Maths

We are continuing our Addition and Subtraction within 20 topic for the next week. Then we will develop our understanding of Place Value by extending our focus to numbers within 50.

Towards the end of the term we will be exploring length and height, followed by mass and volume.

DT

In Design Technology, we will be looking at mechanisms with a focus on making a moving picture using sliders and levers to show air travel.
